Dear MPA Families,

Welcome to our MPA family! At Monroe Preparatory Academy, your child will be nourished, taught, and loved every day. We focus on the key elements of education to ensure your child has a strong foundation to build on as they advance to upper elementary, middle school, high school, and college. We offer a rigorous, student-centered program facilitated by highly effective teachers and supported by progressive technology. Our educational program centers on building success in reading, writing, and mathematics. We offer a safe, caring, and inclusive environment, and support at every level. All students receive free breakfast and lunch daily. Transportation, after school care and tutoring programs are available. We can't wait to work with your student this year and have many exciting learning opportunities planned!

Sincerely,

Rachel Blackshire
